

# Seeking Care During COVID-19

  
Are you just worried?

  
Did you travel?

Do you think you came in contact with someone with COVID-19 but have no symptoms?

  
Fever, cough, headache, runny nose, loss of sense of smell or taste, sore throat, diarrhea?

  
Difficulty breathing, chest pain, confusion, or fever that doesn't respond to medication?

**Stay Home**  
Do not overwhelm medical staff by going to the hospital without serious symptoms

**Call for Advice**  
Use telehealth or call your primary physician

**Seek Care**  
Call 911 or go to the emergency department
